Report of the Appeal was Correct-Pistois were Fired and Cries were Made of "Halt! Halt!"

We invite the especial and careful attention of the readers of the APPEAL to P what follows. On Sunday, the 4th instant, we published the following report in the local department of the APPEAL:

A rather unusual scene for times peace and in a land of milk and honey w.... enacted about 10 o'clock last night at No. G3 Desoto street, occupied as a saloon by Henry Webb, colored. At that hour, while a number of darkies were sitting in a back room of the saloon, some of them at a table playing cards for drinks, the hause brightly lighted, some eight or ten deputy sheriffs dashed in pell-mell and called "Halt! halt" making so much noise that a number of the darkies were frightened nearly out of their wits, and at-tempted to get out of the house. Several pistols were at once drawn by the deputy sheriffs and four or five shots fired, one of the bullets, it is stated, penetrating a bouse in the vicinity occupied by a col-ored woman named Hannah Joiner. Three policemen, who were making their rounds at a distance of three or four blocks away, heard the screams and shots, and were informed by several excited persons

Sixty thousand acres of land in Clay county are about to be handed over to the English syndicate. All of a sudden we discover that the syndicate is not English, and everybody is disappointed. Southern people are English-struck about as bad as their Yankee cousins. The land company was wise. It got all the real estate it wanted given up most respectfully. Had it come out in true American colors in the beginning, what insinuations, what a storm of questions the good people would have hurled at it. ice is not only self-sustaining, but pais a proper and uniform construction of the revised statutes concerning pensions to de-pendent mothers. The Secretary contends retusing to tell where the money was hid, the robbers got willow switches and whipped his bare feet and legs until they were covered with blood. Still refusing, they built a large fire in the back yard, carried him out and proceeded to execute their threat to roast him alive. They placed his feet in the fire and literally roasted them. Even this terrible treatment would not onen his mouth. The old man was then entitled to his services, and if not living the mother was so entitled, and therefore

ers' Association at Vicksburg will be the largest and most important ever held by that association. Large delegations of cot-ton manufacturers from New England and Southern mills have signified their inten-tion of being present. President More-head has invited the Governors and State officers of all cotton and a number of Northern States, and received acceptances from many. He left Washington to-night for Vicksburg.
